

Flex-N-Gate Bradford, Ventra Group Co., a TS16949 and ISO14001 certified and successful OEM Automotive Parts Supplier requires talented individuals to support expansion and diversification. We have immediate openings in our Bradford facility.

PROCESS ENGINEERING MANAGER

The ideal candidate will possess the following:

- Degree in Engineering, P Eng. required
- Minimum of 10 plus years in Process Engineering for Tier 1 automotive environment
- 3+ years in a Managerial Role
- Strong Team Player
- Experience with automated assembly, stamping and maintenance
- Professional attitude with strong organizational skills
- Strong problem solving skills
- Project management skills
- Knowledge of TS 16949 and ISO 14001
- Knowledge of APQP process
- Exposure to Continuous Improvement activities
- Knowledge of PLC's, machine control and CAD skills are an asset

The successful applicant will be responsible for the design, sourcing, commissioning and troubleshooting of automated assembly equipment for new and existing processes. As part of the APQP team, you will be responsible for Process Flow Diagrams, PFMEA's, equipment specifications and plan equipment layouts. You will evaluate existing assembly processes for continuous improvement and provide support to the Production, Quality, Tooling and Maintenance departments. This position will provide direction and leadership to the Process Engineering staff.
