## Robotic Weld Technician

---

### **JOB DUTIES/REQUIREMENTS**

The Robotic Weld Technician will provide technical support in an automated production weld shop environment, located in Covington, IN. Candidates must have extensive electrical/mechanical/automation skills and must demonstrate this knowledge to be considered for this position. The Robotic Weld Technician will work with other technicians, machine operators, and management to ensure production needs are satisfied. The Robotic Weld Technician will be responsible for all aspects of part quality (i.e. weld integrity, dimensional requirements, etc). **Applicants must be willing to relocate to an area near Covington, Indiana.**

### **TECHNICAL QUALIFICATIONS**

- Allen-Bradley PLC/HMI programming & troubleshooting experience
- Working knowledge of industrial I/O networks (Devicenet, RIO, DH+, ENET, etc.)
- Extensive robotic experience with one or more of the following robots (Fanuc, ABB, Motoman, Nachi)
- Excellent electrical/mechanical troubleshooting skills
- Ability to diagnose dimensional part issues and make adjustments accordingly
- Working knowledge of all types of resistance welding: Spot, projection, drawn-arc, etc.
- Robotic MIG welding experience
- Proficient in MS Office

### **EDUCATION**

Minimum A.S. in Technology or equivalent experience
