

MECHANICAL ASSEMBLIES PROGRAM MANAGER

Flex-N-Gate, a TS16949 and ISO 14001 certified and successful OEM automotive parts supplier, requires a knowledgeable and experienced Mechanical Assemblies Program Manager to support expansion and diversification. We have an immediate opening at our Michigan Technology Centre located in Warren, MI.

Reporting to the Engineering Manager, you will provide on site customer support to OEM customers on new and existing programs. You will support all aspects of the product development cycle, testing and manufacturing support activities. Responsibilities include customer and intercompany liaison, and communication of customer requirements to Product Development Center and Sales departments.

The successful candidate will possess:

- Mechanical engineering degree
- Minimum 3 years working experience as a Mechanical Assemblies Program Manager in the automotive industry
- Knowledge of OEM customer systems (APQP, quoting, drawing standards, etc.)
- Design knowledge of mechanical assemblies
- Metal stamping knowledge
- Understanding of FEA and CAD software
- Knowledge of automotive advanced product planning procedures including TS16949, FMEA, DVP&R, PPAP submission
- Excellent verbal and written communication skills

Flex-N-Gate provides an exciting and challenging work environment with advancement opportunities as well as a competitive wage and benefit package including medical, dental, 401(k), life insurance, tuition reimbursement and more.

Qualified applicants should forward resume to Resume@flexngate-mi.com for consideration. We thank all applicants, however, only those selected will be contacted. No phone calls, please.
